

NEOI TECHNOLOGY - (PIC – eMXI) (香港 股份有限公司)

MMS GPRS WAP Settings for M1 Singapore

M1 Singapore offers automated settings for the NEOI Phones. Please follow these steps :

- 1.) Insert You activated M1 card into the Phone. Make sure you have a M1 contract that allows GPRS Data Services.**
- 2.) Send a SMS with the following Text : a1200 to the number 109 >> send**
- 3.) You will receive several messages back**
 - a.) WAP settings >> OK >>> select TWN from the list shown up >>> OK >> select an empty Profile >> OK >> GPRS select an empty Profile >> OK >> OK**
 - b.) MMS Settings >> OK >> select an empty MMS Profile >> OK >> OK >> OK**

Your Neoi Phone is now set up according to your service contract with M1. Please note M1 does NOT allow all Internet or Chat services with its GPRS Contracts, also pop3 email is blocked I the basic contract. For full services we recommended to use Starhub in Singapore.

For Manual settings please use the following settings, however you need to obtain from M! your username and password. Please set Your Neoi Phones up manually with the settings below

Wap Settings:
Profile name: Mi World
Homepage URL: <http://wapsvr.m1.com.sg> (<http://wap.miworld.com.sg>)
Security: Non-Secure
