

GPRS WORLD SETTINGS updated 2nd January 2010

There are many service providers offering MMS services today. We try to update this list regularly; however, we cannot guarantee that all of the service providers mentioned below are working fine.

If there's a service provider that's not working well, we appreciate your comments. Also, if there's a service provider missing that could be valuable for others, please let us know. We try to keep this list up-to-date, so please send your comments to neoi@neoi.de
