NeoITchat: Your **Neoi Phones** have a built in **special Chat Client**, "Instan-t Mobile" which works over the internal **Neoi Network** (without any Advertising or other disturbing Information from public Service providers),

however the **NeoITchat** service works completely **compatible** with public networks like **MSN, Yahoo etc.** To connect to the NeoITchat, please push the **DOWN Arrow** on the 5 Way Navigator Pad on the Neoi Phones and select "IT" enter (Middle Key), then receive the NeoITchat log in screen (follow separate Instructions)

Neoi has assigned to You a **NeoITchat** account and a **linking MSN Chat** account which you may use freely.

However, some local Service Providers like SingTel, are blocking the advertising free **NeoITchat** service, but You still can access the Chat service thru the Neoi Wap Browser go to **MENUE >>> Services >>> OK >>> (2) Wap >>> OK >>> (4) Enter Address >>> OK** and enter <http://mobile.msn.com> , then log in with Your Neoi assigned MSN address or Your normal MSN / hotmail address !
